

DEEPAN A

Computer Science Engineer

📞 9150450767 ✉️ deepan11223344@gmail.com 📍 Chennai

SUMMARY

I am an aspiring computer science engineer with a strong foundation in machine learning, web development, and full-stack technologies. My experience includes internships that honed my skills in implementing practical solutions, including automation workflows and project development. I seek to leverage my technical skills and practical experience to contribute effectively in a dynamic work environment

EXPERIENCE

Intern

Retech Solution PVT LTD

📅 06/2025 - 07/2025 📍 Chennai

A company specializing in technology solutions

- Completed internship training program in the field of machine learning
- Demonstrated exemplary professional traits and effectively executed tasks in the project titled 'Bitcoin Price Prediction Using Machine Learning'

Intern

PN Global Enterprises PVT LTD

📅 02/2025 - 06/2025 📍 Chennai

A company focused on web solutions and software testing

- Completed internship training program in full stack development and QA testing
- Demonstrated exemplary professional traits and effectively executed tasks

Intern

Cleverpoint Software Solutions PVT LTD

📅 12/2022 - 12/2022 📍 Chennai

A firm providing web development and software solutions

- Completed internship training program in web development
- Demonstrated exemplary professional traits and effectively executed tasks in the project titled 'Web Development Using HTML, JavaScript, CSS'

EDUCATION

Diploma in Computer Science and Engineering

Sri Sairam Polytechnic College

📅 08/2020 - 05/2023 📍 Chennai

Bachelor of Engineering in Computer Science and Engineering

Sri Sairam Institute of Technology

📅 08/2023 - 05/2026 📍 Chennai

KEY ACHIEVEMENTS

AI Automation Implementation

Implemented AI automation workflows increasing email response rate by 50%.

Bitcoin Price Prediction

Successfully predicted Bitcoin price trends with 85% accuracy.

Full Stack Development

Completed full-stack project reducing page load time by 30%.

Object Detection System

Developed object detection system achieving 95% accuracy.

SKILLS

Gmail

HTML

JavaScript

CSS

Bitcoin

Instagram

WhatsApp

Cybersecurity

Python

Java

OpenCV

OWASP

Nmap

Wireshark

Burp Suite

Metasploit

PROJECTS

AI Automation Workflows Using n8n

📅 01/2023

A series of AI automation projects focused on various applications

- Automatically reads, categorizes, and replies to emails using AI without any manual effort
- Fetches live crypto data and uses AI to predict Bitcoin price trends and send alerts
- Develops a smart chatbot that understands user needs and recommends the best products in real time
- Publishes AI-generated content simultaneously to Instagram, WhatsApp, Facebook, X, YouTube, and LinkedIn
